Mauritius

Mauritius – some interesting facts: • low corporate tax rate • taxation arrangements with more than 40 countries • economic growth • good schooling • low crime • political stability • unemployment rate below 7% • economy based on tourism, textiles, sugar, energy, education/training and thriving financial services • ideal investment gateway into Africa • Mauritius offshore company/trust formation easy to set up • Mauritius has undertaken reform to strengthen its position as a beneficial jurisdiction internationally.

Harty Rushmere has for many years been involved in international trade, licensing and structuring work with our clients in various jurisdictions around the world. The work has been diverse - from setting up channel licensing/distribution arrangements and IP/brand protection to offshore mergers and acquisitions.

South Africans and their capital are moving abroad, and companies are looking for new and stable markets to do business in or out of. Mauritius is a viable option and we have identified the need to provide support in this particular area.

To this end, we are pleased to announce that we have an arrangement with specialists in this field in Mauritius to enable us to offer our clients a full spectrum of related services. This would include, when to consider Mauritius for you or your business, brand/IP protection, how to expand your business using Mauritius as a foundation, do you need a company/trust and how to set up the shareholding, buying property in Mauritius, investing in Mauritius, obtaining residency, visas or permits to live or work on the island.

As this is a new addition to our offerings, we would be happy to arrange a call or meeting to introduce the personnel and services. Please feel free to contact us at mail@harty.law or on +27 (11) 8840792.
